

“Courageous, insightful, and moving... vividly illustrates why the West must resist and ultimately defeat Islamic supremacism.”

—ROBERT SPENCER, author of *New York Times* bestsellers, *The Politically Incorrect Guide to Islam (and the Crusades)* and *The Truth About Muhammad*

By Mano Bakh
Founder and Director of Concerned American Citizens (CAC) and
Founding Board Director of Former Muslims United (FMU)

With a Foreword by Dr. Wafa Sultan, *From Terror To Freedom*, describes the tortuous escape of a prominent member of the Iranian Navy during the takeover of Iran by Islamic radicals. The revolution took place soon after Mano Bakh was promoted to the rank of Admiral. As a prominent member of the Imperial Iranian Navy, his name became an entry in Khomeini’s *Black Book of Death*. Mr. Bakh was one of the few who miraculously escaped execution. In his memoir, he graphically chronicles the totalitarian rise of the Islamic Republic, the slaughter of innocent people, and the flight of Iran’s best and brightest, while demonstrating an immense love for the people of Iran, its history and culture. A hunted man, he writes under an assumed name. Amil Imani says, *“This is a fascinating account that keeps the reader engaged.”*

Includes images, exhaustive footnotes, and a final chapter on how the West can contain the future aggression Iran wishes to impose on the Middle East. Major endorsements include, Robert Spencer, Dr. Tawfik Hamid, Jerry Gordon, and others.

From the Foreword by Dr. Wafa Sultan

[Mano Bakh’s] harrowing escape from the brutality and destruction of Islamic terror should be a warning to those who prefer to ignore the aggressive Islamic infiltration that is taking place in America, and “the politically correct” who arrogantly drown out [this] intelligent man’s alarming words of warning.

“One of the greatest books I’ve read in the field of Radical Islam. It exposes the reality and the threats of the Islamic regime in Iran.”

About Mano Bakh

Mano Bakh was born a Muslim in Iran. At the age of 18, he was selected to attend the Italian Naval Academy in Livorno, Italy. After graduating, Mr. Bakh was elected to go to the United States Naval Postgraduate School in Monterey, California, and earned a master’s degree in mechanical engineering and nearly completed his doctorate and was inducted into the Sigma Xi society. He was called back to Iran to help in the planning and development of the largest naval training facility in the country. He was promoted to Admiral and was Director of Training and Education for the Iranian Navy when the Islamic revolution took place.

Because he was a prominent officer in the Imperial Navy and had associations with the US Navy, his name was entered in Khomeini’s *Black Book*. He narrowly escaped likely execution with his wife and two small children to the United States where he has since lived under an assumed name.

In 2008, he became a Founding Board Director of Former Muslims United (FMU). He also founded and is Director of Concerned American Citizens (CAC) (ConcernedAmericanCitizens.org), a community and educational non-profit organization dedicated to separating Shariah Law from spiritual Islam.

Experience gives this Persian gentleman the credibility to critique the problematic religious and political situation in today’s Middle East and how it affects the West.

Praise for *From Terror To Freedom*

“A must read for those desiring a first hand detailed understanding and what transpired during the brutal transition to what is now referred to as the Iranian Revolution.”

—JIM CAMPBELL, *National Examiner*

“One of the greatest books I’ve read in the field of Radical Islam. Exposes the reality and the threats of the Islamic regime in Iran... wonderful and captivating.”

—DR. TAWFIK HAMID, Senior Fellow and Chair for the Study of Islamic Radicalism at the Potomac Institute for Policy Studies

“A gripping chronicle about the turmoil of the Islamic revolution and his escape with his family to freedom in America. Bakh’s dramatic escape is facilitated with the aid of a network that includes the valiant Sheik Abdullah, the mayor of Kharg Island, Iranian ex-pats in London, and US Navy contacts.”

—JERRY GORDON, Senior Editor, *New English Review*

“Mano Bakh shows in the tumultuous events of his own life the terrible human cost of Jimmy Carter’s abandonment of the Shah of Iran and the subsequent Islamic Revolution in Iran. Courageous, insightful, and moving, vividly illustrates why the West must resist, and ultimately defeat, Islamic supremacism.”

—ROBERT SPENCER, *New York Times* bestsellers *The Politically Incorrect Guide to Islam (and the Crusades)* and *The Truth About Muhammad*

“This remains a fascinating account that keeps the reader on the edge of his seat throughout. [It] is an amazing work. I do highly recommend this educational book to everyone who values freedom and is interested in a true account of the Islamic Revolution in Iran.”

—AMIL IMANI, author of *Obama Meets Ahmadinejad*

“I was honored to be invited to hear Mano Bakh speak about the Islamic danger that we are facing in America. His words, ‘I lost my birth country, Iran, to radical Islam. I must not lose my adopted country, America, to a barbaric 7th Century ideology. I have come out of hiding to speak out, even at the cost of my life,’ echo my thoughts. Even in America the unthinkable can happen, and it can happen very quickly”
