## FOR IMMEDIATE RELEASE

### ***FAMILY BORED WHILE TRAVELING OR AT HOME? FAMILY-FRIENDLY FUN FOUND IN NEW TRIVIA BOOK LOADED WITH WIT AND WISDOM***

*Whether Headed for a Family Vacation, or Just Killing Time at Home, Ponders, Proverbs & Principles is Just the Ticket*

**Roseville, CA, June 10, 2005**— Hectic schedules, busy lives, and running out of time seem to be dominant themes among today's families. But if you're looking to slow down a bit, spend quality time with your family, and stop all this craziness, there is an answer—Rodney R. Weckworth's new book, *Ponders, Proverbs & Principles*. Mr. Weckworth has created a family gem that will readily become an inspirational family classic.

This book is loaded with wit, wisdom, trivia, fascinating facts, and a countless array of character-building principles for every member of your family. On each of the over 300 pages are thought-provoking **Ponders**, inspiring **Proverbs**, a **Principle** that ties the specific Ponder and Proverb together, a challenging, mind-teasing **Baffler**, and amazing facts presented in **Did you know**.... Families can literally spend hours being entertained and have plenty of fun in the process.

Not many books provide the answers to baffling questions such as "How long did Sleeping Beauty sleep before the handsome prince came to awaken her?" and "At what age does your nose stop growing?" These questions are sure to stump your kids and help make entertaining the family just a little easier.

In addition, the fun "Pondertoons" throughout the book provide enjoyment to kids and parents alike with unique drawings and accompanying quotes from well-known people in the media.

Planning a vacation soon? *Ponders, Proverbs & Principles* is a must-bring and travels well in cars, planes, trains, and buses. It is the perfect book for that special gift. Bring it to family gatherings or read it alone, curled up sipping hot chocolate on a quiet Saturday evening. It is the feel-good, comfort-food-for-the-soul book that offers everyone a much-needed dose of daily inspiration.

Mr. Weckworth's 40 years of collecting and compiling these inspiring bits of wisdom have surely paid off. What began as a "thought for the day" sent to his business colleagues and clients has turned into a valuable book of wisdom apropos for any generation. The material in this book has received some powerful endorsements from heavy-hitters including General H. Norman Schwarzkopf, Dan Reeves, Colin Powell, Alan Greenspan, and Zig Ziglar, who contributed the Foreword.

In *Ponders, Proverbs, & Principles*, families will find an awe-inspiring and much needed collection of the best wisdom a book can offer.
